For Immediate Release:

George Nolen, Recently Retired CEO of Siemens Corporation, Joins InVivo Therapeutics Board of Directors

Cambridge, MA--- InVivo Therapeutics Corporation has added George Nolen, former President and Chief Executive Officer of Siemens Corporation, to its Board of Directors. The Board approved the appointment on Friday, December 11th.

InVivo Therapeutics Chief Executive Officer Frank Reynolds is looking forward to reuniting with Nolen. During Reynolds' time at Siemens, Nolen was his mentor in the high potential candidate pool.

Said Reynolds, "I had a rare opportunity to develop under a world-class business executive, and I continue to utilize George's wisdom and knowledge in my business decisions on a daily basis." Reynolds is confident that the knowledge and experience that Nolen has gained over a 26-year career with Siemens will be beneficial to InVivo's continued development and anticipated rapid growth.

"I'm very excited to be part of something that will help so many people around the world and provide some relief for the enduring suffering caused by spinal cord injuries," said Nolen. "At Siemens I observed Frank's success and I look forward to helping to guide InVivo's success as we advance InVivo's technologies to market".

At Siemens USA, Nolen was responsible for \$22.4 Billion in revenue and 69,000 employees. He was active in the Business Roundtable where he served on the BRT's Consumer, Health and Retirement committee and the Sustainable Growth Committee. Prior to becoming CEO of Siemens in 2004, he had served as President of Siemens' Information and Communications division from 1998 to 2004.

Nolen is currently active on the Board and Executive Committee of the U.S. Chamber of Commerce as well as on the Virginia Tech Board of Visitors. He also serves as the Chairman of the Virginia Bioinformatics Institute.
